Summary

Experienced software engineer with 8+ years of expertise in full-stack development, distributed systems, and cloud architecture. Passionate about building scalable solutions and mentoring engineering teams.

Experience

Senior Software Engineer

Acme Corp
~ San Francisco, CA
~ 2020 - Present

- Led the migration of monolithic architecture to microservices, reducing deployment time by 70%
- Designed and implemented real-time data processing pipeline handling 1M+ events/day
- Mentored team of 5 junior engineers through code reviews and pair programming sessions
- Established engineering best practices including CI/CD pipelines, testing standards, and documentation

Software Engineer

Tech Startup Inc
~ New York, NY
~ 2017 - 2020

- Built customer-facing web application using React and Node.js serving 50K+ daily active users
- Implemented RESTful APIs and GraphQL endpoints for mobile and web clients
- Reduced page load time by 40% through performance optimization and caching strategies
- Collaborated with product team to define technical requirements and deliver features on schedule

Junior Developer

Digital Agency
~ Boston, MA
~ 2015 - 2017

- Developed responsive websites and web applications for various clients
- Maintained and enhanced existing codebases using modern JavaScript frameworks
- Participated in agile development processes including sprint planning and retrospectives

Education

Master of Science in Computer Science

Stanford University
~ 2013 - 2015

Bachelor of Science in Computer Engineering

MIT
~ 2009 - 2013

Skills

Languages: JavaScript, TypeScript, Python, Go, SQL, GraphQL

Frameworks: React, Node.js, Express, Next.js, Django, FastAPI

Infrastructure: AWS, GCP, Docker, Kubernetes, Terraform, GitHub Actions

Databases: PostgreSQL, MongoDB, Redis, Elasticsearch

Projects

Open Source Contributions

- Contributed to major open source projects including React and Node.js
- Maintained personal libraries with 500+ GitHub stars combined
- Regular speaker at local tech meetups and conferences
